PROFESSIONAL EXPERIENCE

Hewlett Packard Enterprise

Software Engineer II - Cloud Platform Development

Bengaluru, Karnataka

Aug 2022 – Present (3+ Years)

- Engineered Disconnected Management Solutions for HPE, enabling seamless cloud experiences in environments without internet connectivity. [\[1\]](#)
- Key contributions include system security implementations, Kubernetes cluster management, deployment tooling integration (Helm, Mayastor), and secure authentication features with strong password policies.
- Collaborated with Private Cloud and Storage teams to onboard business-critical projects. [\[Blog Post\]](#)

INTERNSHIP EXPERIENCE

SeaportAI

SDE Intern

Chennai, Tamil Nadu

May 2020 – Jul 2020

- Developed and deployed a responsive web application using React and Flask, with API integration for managing OCR services and ML-based processing of image data.

Tata Consultancy Services

Project Intern

Bengaluru, Karnataka

Feb 2022 – Jun 2022

- Contributed to a Real Estate Management System proof of concept by developing a property management module using Java and Spring Boot, supporting efficient property listings and searches.
- Enhanced system security by implementing user authentication and authorization with OAuth 2.0 and JWT, reducing authentication errors by 40% and ensuring secure, smooth user interactions.

PROJECTS

- Blog Diary Website** – A Dockerized blogging and Q/A platform deployed on Raspberry Pi with GitHub automation for streamlined workflows.
- Disaster Management Portal** – Web-based application for predicting and managing disaster zones using deep learning for drone-based recognition, deployed on Raspberry Pi.
- Home Automation System** – IoT-based solution using ESP32 and Raspberry Pi with a web interface, integrated with Google Cloud Logging and ThingSpeak for monitoring and control.

TECHNICAL SKILLS

Languages: Python, GoLang, C++, JavaScript, Java, SQL, Bash/Shell Scripting

Cloud & Infrastructure: Kubernetes, Helm, Docker, Cloud-Native Applications, Infrastructure as Code (IaC)

Backend & Frameworks: Node.js, Express, ReactJS, Next.js, RESTful APIs

DevOps & Tools: Git, CI/CD Pipelines, Linux/Unix, Container Orchestration

Storage & Databases: MongoDB, SQL, Mayastor (Cloud-Native Storage), MinIO

Specialized: CUDA, IoT, Raspberry Pi, ESP32

Certifications and Training:

- Neural Networks and Deep Learning
- Machine Learning with Python
- Server-side Development with NodeJS, Express and MongoDB
- Microsoft Certified: Azure Fundamentals

EDUCATION

Vellore Institute Of Technology University

Bachelor of Technology in Information Technology - GPA 8.2/10

2018 – 2022

Vellore, Tamil Nadu

Sainik School Amaravathinagar

CBSE XII and CBSE X

2009 – 2017

Tiruppur, Tamil Nadu

ACHIEVEMENTS

- VIT Mathathon 2020 - **Runner Up**: Developed innovative mathematical modeling solution addressing real-world optimization problem for addressing the Chennai reservoir water management
- National Cadet Corps (NCC) - **NCC A & B** Certificates: 7 years of leadership training and disciplined service in NCC Senior Wing.
